

REDUCING FOOD LOSSES AND WASTE TO ENHANCE FOOD SECURITY AND NUTRITION

Sharing experiences, discussing policies

Wednesday, 16 September 2015 – Rome,
FAO HQ Iran Room (10.00 – 12.30)

The seminar aims at raising awareness on the need to reduce food losses and waste (FLW) in order to enhance food security in developing, emerging and industrialized countries. It will stimulate dialogue and the sharing of experiences among public authorities, food business operators and individual consumers. The event will be organized in two sessions : one on the role of technical innovation to reduce food losses and one on the nexus between food waste and Food security and nutrition.
